

BURLESCOMBE & WESTLEIGH COMMUNITY HALL

CHAIRMAN'S REPORT 2026

Once, again a successful year although a very much quieter year.

The leak in the flat roof was repaired under warranty. The main hall and the Roger Williams Room was redecorated and we have had new blinds installed to the windows in these rooms.

Following the successfully sorting out the cutlery a couple of years ago it was necessary to turn our attention to the crockery which was majorly mismatched and tatty. We now have a total new set of white crockery which looks much smarter.

The film screen still needs replacing not necessarily an electric one, or an automatic one, a pull down one will suffice, just one of the right size.

A perennial problem we appear to have is the front door keeps on needing adjustments or repair.

The car park hedges have been cut properly this year and are now looking quite tidy, thanks to David Reed for getting this job sorted. Unfortunately, this is something additional that we needed to pay for this year.

We are again doing our bit for nature by allowing the Bluetits to nest one of the cigarette butt boxes.

Our next project will be to decorate the outside of the hall and we are still looking at installing Wi-fi. We are also aware of the dip in the car park as you enter.
